

# iTECS Turbo

INTEGRATED CONTROLLER

## Who Needs Integrated Access Control?

Over the last decade the evolution of access control has been exponential, with previous "stand alone" applications like CCTV Control, Time and Attendance and Photo Badging now being integrated directly or indirectly through software. With these technological advances happening so rapidly, it is important that you, the end user have the opportunity to utilize these features without wasting countless hours on hardware & software training. iTurbo's software interface has become the new standard for ease of application. Regardless of the complexity of system, you will not be burdened with complications. Whether adding user privileges or configuring a new time zone, all of our graphical user interface screens have been designed for extreme simplicity.

## Who Needs...

- Up to 60,000 Users
- Unlimited Site Codes
- Unlimited Door Access
- Badging Integration
- 255 Access Privileges
- Visitor Credentials
- 200 Time Zones
- 100 Holidays
- Timed Anti-pass Back
- 5 Client Workstations
- Multiple Com. Ports
- Multiple TCP/IP Channels
- A Fully Distributed System
- Input Output Panel Support
- Multi Site Dial Up
- Elevator Control
- Real Time Events
- Alarm Notification
- CCTV Integration

Modem

TCP/IP

## APPLICATIONS:

- Entrance/Exit Doors
- Garage Door Control
- Gate Control
- Elevator Control by Floor
- Alarm System Integration
- Camera Surveillance
- Badging Integration

## READER TYPE:

- Proximity
- Wireless
- Key Pads
- Biometrics

## COMMUNICATION:

- Direct to iTurbo
- Modem
- TCP/IP
