

# ProxPass<sup>®</sup>

## ECS Long Range Proximity for Vehicle Access Control

ProxPass Active Proximity Tag

### Application

The ECS ProxPass is an active tag specifically designed for vehicle access control. Providing convenient access control for parking and fleet management applications, ProxPass is an ideal augmentation to an existing or new ECS proximity access control system.

### Features

- Provides a six to eight foot read range.
- Velcro backing attaches easily to interior of vehicle windshield.
- Attractive, durable sealed case.
- Compatible with ECS MaxiProx Reader
- Two to five year battery life, depending on usage
- Competitively priced as compared to VHF vehicle tags

# ECS ProxPass Active Proximity Tag

## Features

### DESCRIPTION

RF-programmable, customer specified ID numbers.

### OPTIONS

External tag numbering.

### EASILY ADMINISTERED

A cross-reference list correlating the external tag number and the programmed ID number provides easy system administration.

### SECURITY

Over 137 billion unique codes available.

### LONG LIFE

Dual battery design and low current draw allows two to five years with typical usage.

### DURABILITY

Rugged, UV-resistant, sonic-welded polycarbonate case is also weather resistant.

### WARRANTY

Two year warranty against materials and workmanship.

## Specifications
