

# SQUARE STANCHIONS

**DESCRIPTION:** Heavy-duty steel posts for use in supporting large housings or where a more substantial appearance is desired. Available with two housing stations at different heights for use at vehicular access points servicing both cars and trucks. Standard flange allows use with housings and mounting plates with 3" square post hole pattern. Stanchions mount to concrete surfaces using anchor bolts (not provided). Two-part snap-together baseplate cover conceals mounting hardware.

**ORDERING GUIDE:** Single station square stanchion part numbers have the form, S3 Sn dd hh, where n is the style number (1 to 4), dd is the projection forward from the center of the base, and hh is the height. For dual station stanchions, hh is replaced by h1h1/h2h2, where h1h1 and h2h2 are the heights of the upper and lower stanchions, respectively. (All Dimensions are in inches, +/- 0.5"). All stanchions are sandblasted and zinc plated. Optional 1-1/4" or 2" pipe nipples allow use with housings with couplings. To order a square stanchion, specify the basic part number, followed by mounting and finish option codes, as desired.

**MOUNTING:** (Flange is standard)  
**FINISH:** WPC (White Powder Coat)

### OPTION CODES

1N (1-1/4" Pipe Nipple)  
 BPC (Black Powder Coat)

2N (2" Pipe Nipple)  
 SF (Special Finish)

**Example: S3S31235-1N-BPC**

This is a 3" square, style 3 stanchion, 35" high, 12" forward extension, 1-1/4" pipe nipple and black powder coat finish.

**PRICING INFORMATION:** The list pricing shown below include stanchion, baseplate cover, selected mounting option, and indicated finish. \*Please consult factory if special finishes are desired.
